National Volunteer Week April 14-20
"Every Moment Matters" highlighting the important contributions of volunteers in our community.

Spring Thaw Tips:

Spring not only brings warm temperatures it also brings the threat of flooding, with melting snow or heavy snow and rains.

Some tips to help mitigate potential problems:

- Shovel snow from around your foundation. Allow the water to drain away from your home. Take special notice around basement window sills.
- Take notice of any developing ice ridges that are building and chip them down to allow drainage.
- Clear eavestroughs and roof of excess snow. Extend downspouts if possible, at least 6 feet from the foundation. Protect against ice damming.
- Do not shovel snow onto the street or pile on the sidewalk.
- Check to make sure your sump pump is working to pump out any water that makes it to your sump.

It is important to be considerate of your neighbors and work with them to prevent water from being drained onto each other's properties.

Feist Flanagan Law

Robert Feist J.D.,B.A will be available for appointments at the Village office the **1st and 3rd Friday of each month.**
